Experiences

University of Oslo

IT-consultant

Sept 2023 - present | Oslo

- Provided technical support to students and staff across software, hardware, and account-related issues.
- Delivered troubleshooting and guidance via email, phone, and in-person support.
- Ensured efficient ticket resolution using internal support systems, improving customer experience.
- Designed PAT, an internal package registration and tracking system used by the IT Helpdesk to streamline deliveries and improve accountability.
- Designed a booking system that enables users and IT support staff to schedule guidance sessions.

Lær Kidsa Koding

Workshop Facilitator

Oct 2024 - Dec 2024 | Oslo

- Led creative technology workshops for children, parents, and grandparents.
- Taught introductory programming using Scratch and Micro:bit.
- Designed learning activities that encouraged intergenerational collaboration and playful exploration of technology.

Sykehusapoteket Ahus

Technician

May 2023 - Dec 2025 | Lørenskog

- Prepared and handled medications and pharmaceutical products in accordance with strict quality and safety procedures.
- Managed inventory, stock control, and the distribution of pharmaceutical supplies.
- Collaborated with pharmacists and healthcare professionals in a fast-paced hospital environment.

Norwegian Directorate of Health

Office & Administration Apprentice

Aug 2020 - Aug 2022 | Oslo

- Managed administrative tasks including document handling, meeting coordination, and case logistics
- Worked with public-sector case management systems and handled confidential information responsibly.
- Collaborated with teams across departments, strengthening communication and organizational skills.
- Completed the apprenticeship with the grade "Bestått meget godt" (passed with distinction).
